SEAL OF APPROVAL

## INSTRUCTIONS

1. Choose a desired location for the Pirate's Ship Wheel and drill a 5/16" diameter hole through the lumber. **NOTE:** *If lumber is greater than 2" in depth, you will need to counterbore the hole accordingly.*
2. Mount Pirate's Ship Wheel to the lumber as indicated in Fig. 1.
3. Snap Pirate's Ship Wheel cap into place (*Fig. 1*).
